

Offer Better Customer Service & Improve Sales

In a recent survey, BRP found that ease of checkout and payment are important factors in deciding where to shop for 82% of consumers.* Self-service solutions can reduce friction during transactions, and support additional functionality such as order-taking, service, product information, ticket and lottery sales and so much more. The K-two interactive kiosk is designed to quickly, seamlessly assist your consumers at every step of their journey.

Designed for Today's Consumer

The K-two's sleek ergonomic design delivers a consistently reliable experience, yet it's flexible enough to adapt to changing business needs. Using multi-touch technology, the larger screens are ideal for self-service ordering and offer an attractive advertising space.

Adaptable and Customizable

Built for 24/7 operation, the K-two kiosk offers flexible configuration options:

- Choose between a 22", 27" or 32" multi-touchscreen.
- Install it as a stand-alone kiosk or in a back-to-back format.
- Mount it on a stainless steel pole or on a wall.
- Design the interaction area with only the components your consumers need.

A Strategic Solution that Delivers Results

The K-two meets the demands of your business while delivering the ideal consumer touchpoint:

- Improve service for enhanced consumer satisfaction.
- Increase business productivity with options for upselling.
- Ensure optimal availability and reduced total cost of ownership.
- Promote sales and marketing campaigns quickly and easily.
